PROFESSIONAL SUMMARY

Geospatial Engineer and Technical Support & Projects Team Leader with over 13 years of professional experience in geospatial technologies, surveying systems, technical support, and project delivery. Extensive hands-on experience in Mobile Mapping, CORS/VRS infrastructure, GNSS technologies, topographic surveying, and field operations. Proven experience leading technical teams and delivering geospatial projects across Saudi Arabia, including the deployment, operation, and support of a nationwide VRS network comprising more than 300 reference stations.

CORE EXPERTISE

Geospatial Engineering • Technical Support & Project Leadership • Mobile Mapping Systems • CORS & VRS Infrastructure • GNSS Technologies • Topographic & Land Surveying • 3D Laser Scanning & Reality Capture • System Installation & Commissioning • Technical Troubleshooting • Team Leadership & Coordination • Client Technical Support & Training • IT & Network Infrastructure

PROFESSIONAL EXPERIENCE

Al Jehat Company (JATCO) - Saudi Arabia

Technical Support & Projects Team Leader | Geospatial Engineer | September 2013 - Present

- Lead technical support teams and coordinate the execution of geospatial and surveying projects across Saudi Arabia.
- Manage installation, configuration, operation, maintenance, and technical support of advanced geospatial systems.
- Hands-on experience with Mobile Mapping, GNSS, CORS/VRS infrastructure, topographic surveying, and field data acquisition.
- Lead and support a nationwide VRS network comprising more than 300 reference stations across Saudi Arabia.
- Coordinate field operations, system commissioning, troubleshooting, and technical project requirements.
- Provide technical demonstrations, training, and support to clients and field teams.
- Coordinate with clients, manufacturers, and project stakeholders to ensure successful technical delivery.

Al-Salam Company - Sudan

System Engineer / System Analyst | January 2012 - July 2013

- Provided technical support and administration for computer systems and network environments.
- Installed, configured, and maintained Windows operating systems and Windows Server infrastructure.
- Supported Active Directory, network connectivity, hardware, software, printers, and shared resources.
- Diagnosed and resolved system, network, and end-user technical issues.

PROJECT PORTFOLIO

2013-2014	National VRS Network Deployment
2017	Al Majma'ah Land Topographic Survey
2018-2019	Al Baha & Taif Panoramic Visual Survey
2020	Riyadh-Al Kharj Land Topographic Survey
2020	Al Janadriyah Topographic Survey
2020	North Al Khobar Topographic Survey
2020	Three-City Panoramic Visual Assessment
2020	Al Aziziyah Topographic Survey
2020	Qassim Panoramic Visual Survey

2021	Jafurah Pipeline Corridor Survey
2021	King Fahd Road Topographic Survey
2021	Madinah Road Network Survey
2021-2022	Eastern Province Panoramic Visual Survey
2022	Salah Al-Din & Al Waha Survey
2022	ARAMCO VRS Stations Upgrade
2022-2023	Olisha & Uraija Topographic Survey
2023	Erqa Topographic Survey
2023	Jubail Land Topographic Survey
2024	Western Region Water Pipeline Survey
2025	Tabuk & Tayma Drainage Survey
2026	Al-Lisen Valley Topographic Survey

TECHNICAL SKILLS & TECHNOLOGIES

Mobile Mapping & Reality Capture: Trimble MX2 • MX7 • MX9 • MX50 • MX60 • 3D Laser Scanning • Panoramic Imaging • Reality Capture

GNSS, CORS & VRS: GNSS Reference Stations • CORS/VRS Networks • Trimble NetR9 • Trimble Alloy • Trimble Zephyr 2 & Zephyr 3

Surveying & Field Operations: Topographic Surveying • Land Surveying • Field Data Acquisition • Corridor & Infrastructure Surveying

Software: Trimble Business Center (TBC) • POSPac

IT & Network Systems: Digi Transport WR44 • TCP/IP Networking • Network Configuration • System Connectivity • Remote Technical Support • Windows • Windows Server • Active Directory • Hardware & Software Troubleshooting • Network Administration

Technical & Project Operations: System Installation • Configuration • Commissioning • Maintenance • Troubleshooting • Technical Training • Field Team Coordination • Project Delivery

EDUCATION

Diploma in Computer Networks Systems Technology

University of Science & Technology - Sudan | 2011

LANGUAGES

Arabic - Native • English - Intermediate

CERTIFICATIONS, TRAINING & PROFESSIONAL RECOGNITION

Technical Certifications & Training

- Trimble Mobile Mapping Systems - Trimble, 2023
- Cisco Certified Network Associate (CCNA) - Sudan Telecommunications Academy, 2012
- Implementing Cisco Unified Wireless Networking Essentials - Gateway, 2010

Professional Participation & Recognition

- 11th GIS Symposium in Saudi Arabia - Imam Abdulrahman Bin Faisal University, 2017
- Career Forum Appreciation Certificate - University of Dammam, 2016
- 10th GIS Symposium in the Eastern Province - University of Dammam, 2015
